Disable Driver Signing

To disable windows driver signing follow these steps:

1. Run command prompt as Administrator

2. type **bcdedit -set loadoptions DISABLE_INTEGRITY_CHECKS**

3. Then type **bcdedit -set TESTSIGNING ON**

4. See security risk warning above.

5. If it doesn't work for whatever reason you can just remove loadoptions

6. Use bcedit and switch testsigning off **bcdedit /deletevalue loadoptions**

7. Then **bcdedit -set TESTSIGNING OFF**
